Under the authority of the *Pest Control Products Act*, Health Canada's Pest Management Regulatory Agency (PMRA) has added new uses on cereal grains to the product labels of Quadris Flowable Fungicide and Quilt Fungicide, containing technical grade azoxystrobin. The specific uses approved in Canada are detailed on the labels of Quadris Flowable Fungicide and Quilt Fungicide, *Pest Control Products Act* Registration Numbers 26153 and 28328, respectively.

Corresponding maximum residue limits (MRLs) were proposed in the consultation document published on 8 December 2009, Proposed Maximum Residue Limit PMRL2009-12, *Azoxystrobin*. In addition, the PMRL also consulted on proposed MRLs for azoxystrobin on legume commodities previously registered in Canada for which MRL consultations had not been conducted. The PMRA received no comments in response to this consultation.

To comply with Canada's international trade obligations, consultation on the proposed MRLs was also conducted internationally by notifying the World Trade Organization, as coordinated by the Standards Council of Canada. No comments were received as a result of the World Trade Organization consultation.

The following MRLs take legal effect as of the publication date of this document and are in addition to the MRLs already established for azoxystrobin.

Established Maximum Residue Limits for Azoxystrobin

Common Name	Residue Definition	MRL (ppm)	Food Commodity
Azoxystrobin	α E methyl 2-[[6-(2-cyanophenoxy)-4-pyrimidinyl]oxy]- α -(methoxymethylene) benzeneacetate, including the isomer (Z)-methyl 2-[[6-(2-cyanophenoxy)-4-pyrimidinyl]oxy]- α -(methoxymethylene) benzeneacetate	0.2	Succulent shelled English peas, succulent shelled garden peas, succulent shelled green peas, succulent shelled peas, succulent shelled pigeon peas
		0.03	Barley, buckwheat, oats, pearl millet, popcorn grain, proso millet, rye, sorghum, teosinte, triticale, wheat, wild rice
		0.02	Edible-podded jackbeans, edible-podded moth beans, edible-podded runner beans, edible-podded snap beans, edible-podded soybeans, edible-podded swordbeans, edible-podded wax beans, edible-podded yardlong beans, succulent shelled blackeyed peas, succulent shelled broad beans, succulent shelled cowpeas, succulent shelled lima beans, succulent shelled southern peas

A complete list of all MRLs established in Canada can be found on the Maximum Residue Limits for Pesticides webpage in the Pesticides and Pest Management section of Health Canada's website.
